

TOWN COUNCIL

Regular meeting held Wednesday. All present but Coun. Goodridge. Minutes of the previous regular and special meetings were read.

The returning officer on the by-law vote reported that the two by-laws, market side and woolen mill bonus had passed.

Jos. Brunelle, inspector of noxious weeds, reported that the following weeds were growing within the municipality. Bull mustard, wild oats, shepherd's purse and Canada thistle. He asked that the town immediately take steps to have these weeds destroyed.

R. Wyle, caretaker of the land office, complained of the broken condition of the culvert over the ditch in front of the land office. Referred to board of works.

A. G. Harrison, secretary of the Industrial Exhibition Association, thanked the council for their liberal grant towards the fair.

H. B. Co., acknowledged receipt for rent of "Big House" and released town from lease thereof.

W. J. Webster, of Westport, Ontario, wrote as follows in regard to his project for the establishment of a woolen mill here.

On my arrival home I concluded deal for woolen mill and just now returned from Buffalo, N. Y., where I purchased three wide blanket looms and sufficient other woolen machinery to make a full three set mill, so that if business offers I will be in a position to turn out all the work that can be sold, for years. I can leave the last of July and get ready to commence operations on arrival. I did not get a copy of proposed by-law yet. I can assure you on my part I will employ every man and woman possible and I feel confident a good business can be done. Already three families desire to come along and some others as well. It will be necessary that I take skilled labor from here. I am also negotiating for a building placed here. If I put in will require the employment of a number more. On hearing of result of by-law I will at once start with machinery and erect buildings.

The secretary-treasurer of the town of Strathcona wrote that cheque for the amount of the town's account in connection with the isolation hospital would be issued on the return of Mayor Ritchie.

A. C. Harrison, asked for the presence of one of the town policemen on the fair grounds during the fair, in addition to the staff of special police which the association would put on. It was decided to grant the request, putting one on at night and one during the day, and one evening on each half of the town, two specials for town patrol during the days and nights of the exhibition.

The police barracks here are owned by Mrs. Catharine McDonald. Each year for a number of years, during the occupancy of the barracks by the mounted police, the town has taxed the property to Mrs. McDonald, and collected taxes thereon. On the ground that the buildings were government property and not liable to taxation. Mrs. McDonald objected to the taxation and sued the town. The decision of Mr. Justice Blandy in the case was read. Briefly, he held that the land and buildings were not liable to taxation, and quashed and set aside all rates charged against it, the town paying the costs of suit.

The town of Medicine Hat offered for sale their chemical engine. The secretary-treasurer replied that Edmonton was already supplied.

Petition of A. G. Harrison and others for the brushing out of the street by B. C. Co., reserve, from Jasper to Victoria avenue, was referred to board of works. Two petitions for local improvements were read. One for a four foot sidewalk on Elizabeth street from McDougall to Howard streets, the other for the grading of the north side of 1st street, R. L. 10, between Fraser and Namayo avenues. Tenders will be called for the construction of the sidewalk. The grading will be done by day labor, under direction of the board of works.

The health and relief committee reported on the closing up of the civic hospital. They approved of the grant of \$100 to be made by two towns to the sisters of charity in consideration of their services as nurses at the hospital. A draft of a letter was read to the minister of agriculture, Regina, asking that the Dominion Government, or the Dominion government through them, repay the towns for the expenditure they had been put to in suppressing the epidemic.

Coun. Henry reported on behalf of the fire and light committee that on investigating the tank in front of the Imperial Bank he had discovered that it was useless. On the tank being pumped out it had fallen in. They had called for tenders for a new tank 12x12. Two tenders were then opened: Wills & Deyl, \$462.25; Jas. McDonald, \$365. After consideration the council decided to ascertain the cost of a brick tank before proceeding further.

The report of F. W. and L. committee recommending purchase of wood and water tender for the fire engine, was adopted.

Councillor Brown reported that survey of connection of trails on St. Albert road had been completed. The mayor, as chairman of the committee on waterworks, reported that he had written to five engineers on the subject but owing to the delayed train and mail service had received no replies.

Tenders were received for the construction of the four foot sidewalk from Jasper avenue to McKay street, on the south side of Fourth street. They were: Jas. McDonald, 25-4 for walk, 45c for crossing; B. C. Co., 25-1-2 for walk, 45c for crossing; Wills & Deyl, 25c for walk, 45c for crossing. The tender of Wills & Deyl was accepted.

The secretary was instructed to write P. Heinicke notifying him that the town was prepared to purchase the market site under the agreement with him.

After the passing of the following accounts the meeting adjourned: G. J. Kinnaird, returning officer, \$10.00; Imperial Bank, interest, 1.75; Town officials, salaries, 408.34; Jas. McDonald, 117.36; Pay sheet, street labor, 63.75; Jos. Eilhan, dog hunting, 4.00; Ross Bros., 1.70; C. T. Bragg, insurance, 16.80; D. W. MacDonald, drugs, 10.15; Dr. McKay, 3.00; J. J. Stovel, 3.00; D. W. MacDonald, drugs, 37.45; \$674.75.

THE DELAYED MAIL

The following telegram has been received by the president of the board of trade in reply to the telegram sent by the board to the post office department in regard to delay of mails:

Ottawa, June 27, '01.
J. H. Gariepy,
Pres. Board of Trade, Edmonton.
Matter has been urged upon attention of manager Canadian Pacific railway, requesting him to use all possible despatch in having mail forwarded.
R. M. COULTER,
Deputy Postmaster General.

CROP RETURNS

The annual report of the Northwest department of agriculture for 1900 gives a statement of the crops operating last season, in the Territories. There were 399 machines, of which 79 operated in Alberta north of the 49th parallel, the country from Hobbema north.

In the North Alberta division the crops are given as:

| | |
|--|-------------------|
| Wheat, | 23,690 acres |
| Oats, | 45,930 acres |
| Barley, | 5,101 acres |
| Total, | 74,720 acres |
| Wheat, | 443,423 bushels |
| Oats, | 1,476,913 bushels |
| Barley, | 123,543 bushels |
| Total, | 2,043,879 bushels |
| The total crop of the Territories is given as: | |
| Wheat, | 412,864 acres |
| Oats, | 175,430 acres |
| Barley, | 17,044 acres |
| Total, | 605,347 acres |
| Wheat, | 4,028,294 bushels |
| Oats, | 4,226,152 bushels |
| Barley, | 383,216 bushels |
| Total, | 8,637,662 bushels |

From the foregoing it appears that from one-eighth of the total acreage under crop, North Alberta produced one-fourth of the total crop of the Territories.

This return scarcely justifies the criticism of the quality of the grain contained in the report. Both wheat and oats are spoken of as inferior in quality. As a matter of fact five roller mills in the district have been and are still running continuously on last season's wheat crop with the result that notwithstanding every effort of the big milling combine Manitoba flour is practically kept out of the district, and is being successfully competed with in Kootenay. While North Alberta oats have been continuously quoted at a figure above Manitoba oats on the Winnipeg market. Besides, the magnificent condition of the growing crop of this season, both in Manitoba and Alberta is conclusive evidence of the sound quality of North Alberta oats of last year's crop.

IMPORTATION OF THOROUGHBRED CATTLE

The report of the agricultural department of the Northwest government for 1900, contains the following regarding the bringing of thoroughbred bulls into the Territories under the auspices of the department. The basic upon which the department during the last year extended encouragement towards the importation of purebred bulls into the Territories from the provinces of Manitoba and Ontario, was the same as that outlined in the reports of 1898 and 1899. The Canadian Pacific railway company granted free transportation up to eight car loads and the sum of \$500 was paid to the department by every applicant for the transportation of a bull, in consideration of which the department undertook to take care of the bull at any point within the Territories. This privilege was confined to actual owners of cattle residing in the Territories, and no more than two bulls were brought up for any one individual under this arrangement.

Eighteen bulls were imported from the province of Manitoba and forty-seven from Ontario, making a total of sixty-five, as compared to forty-eight imported under the same arrangement during the previous year. The total cost per head of the Ontario shipment, including local freight, charges, feed, attendance en route and incidental expenses, was \$9.30 per head, and for the Manitoba shipment \$4.10 per head. The total expenditure for the whole shipment was \$511.46 and the revenue \$325.00, involving an expenditure of \$186.46, being a little less than \$3.00 per head. Considering that the animals were gathered from thirty-one different railway points in Manitoba and Ontario and distributed to thirty-two stations in the Territories, involving heavy shunting charges and frequent local shipments, this is apparently an economical management as could be expected under the circumstances.

Twenty-four bulls were shipped into Assiniboia, thirty-nine into Alberta and two into Saskatchewan. Last season twenty were consigned to points in Assiniboia, twenty-five to Alberta and three to Saskatchewan. It will be noticed that the total importation of bulls under this arrangement into Saskatchewan for the two years during which it has been in operation, only amounts to five, out of a total importation into the Territories of 113. In this connection it may also be mentioned that a whole lot of good serviceable home bred bulls was allowed to leave Saskatchewan, consigned to a public sale held at Calgary recently under the auspices of the Purebred Cattle Breeders' Association, the owners claiming that there was no local market. I am personally of the opinion that a very small number of purebred bulls have been brought into Saskatchewan by private enterprise of late years. It would appear that considerable educational work could with advantage be done in that district by agricultural societies in order to induce stockmen to discard the grade bull in favor of the purebred.

Although the number of bulls brought in under the auspices of this department during the past season shows a material increase over the importations for the year 1899, I do not think that this branch of the department's work is likely to develop to any extent at all desirable. I should think that this work was first taken in hand a necessity for government assistance. It is a pity that at this time, a very considerable number of purebred bulls were brought into the Territories, and chiefly consigned to important stock centres such as Calgary, High River, Lethbridge, Macleod, Yorkton and other points in the ranch-

ing districts. During the last couple of years, this state of affairs has largely undergone a change, as there is now hardly a town or village of any importance throughout the whole of the Territories where purebred bulls are not being offered for sale by local importers. Another departure which will in the future greatly facilitate the exchange of purebred bulls and enable the smaller stockmen to purchase suitable animals, is the public auction sale of purebred stock which have now been inaugurated by the Purebred Cattle Breeders' Association and to which local breeders can consign their surplus animals. There can be no reasonable doubt that the efforts of the department to place Territorial stockmen in a position to purchase animals in the eastern provinces and land them in the Territories at a uniform rate of \$5.00 per head, has been productive of much good and was instrumental in stimulating private enterprise to meet existing requirements. It is confidently hoped that in the course of a few years, the necessity for government action, which existed when the scheme was first formulated, will be effectually removed, when the field may with safety be left to the efforts of private individuals.

SEALED TENDERS

addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at the office of the department, 22nd, 1901, inclusive, for the supply of coal for Public Buildings throughout the Dominion.

Combined specifications and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent of amount of the tender, which will be forfeited if the party declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
JOS. R. ROY,
Department of Public Works, Secretary.

WEST BEAVER LAKE.

At last something has been accomplished concerning the long needed improvement in the mail service. A meeting of the residents of Beaver Lake district was held at Logan post office on Monday, the tenth, first to discuss the matter and take action. A petition was drafted which asks for a weekly mail service and a change of route. The route at present is from Fort Saskatchewan and is a fortnightly service. The proposed new route is from Edmonton, Lake, and the present Metakewin and Bittern Lake route. This latter is a weekly service and Bittern Lake is just about twenty-five miles from Northern, the nearest post office to it in the Beaver Lake district while the Fort is about forty miles from Ross Creek, the nearest post office to it in the Beaver Lake district. There will probably very soon be another post office half way between Bittern Lake and Northern as this country is almost filled up with scarcely one homestead now available between these points. This petition is now in circulation and is meeting with hearty approval in each of the six post office districts around Beaver Lake. Everybody is heartily sick of the fortnightly mail service.

Another postal matter which needs improvement is the change of name of one of the post offices at Beaver Lake, viz., Beaver Lake post office. Owing to there being six post offices at the lake, long delay in the proper delivery of mail matter to the persons addressed ensue when addressed as "Mr. So and So, Beaver Lake, Alberta." To the outside world it seems that such places as Northern, Tofield and Ross Creek post offices do not exist, and correspondents address their friends of these and other post offices in this district as above, and hence a delay of a month or six weeks in the delivery of such mail matter. Some letters always go to Beaver Lake post office on the east side and necessarily must wait at least a fortnight before they can be returned or sent on to the proper address. It is to be hoped that something will be done regarding this question.

The contract of the building of the Presbyterian church at Ross Creek has been let to Mr. A. Hallberg. The Anglican church there has not yet been completed.

An unfortunate accident happened a few days ago to the eldest daughter of Mr. Wm. Anderson of Logan. One of the boys was handling a shot gun in the corner of the room when he was accidentally firing the gun and the contents falling effect in the calf of the leg of the little girl who was just learning to walk. Her mother took her next morning to the Fort for surgical attention.

Local improvement work is being carried on in the Ross Creek district under the charge of Mr. Woods, overseer. Mr. Wood withdrew his resignation of the position which he put in at the annual meeting, and is continuing to the end of the year. Mr. Bieker has assumed the reins of office as overseer in Tofield township. He has condemned Mr. A. Hunt's bridge as being unsafe for public traffic. It is not known yet when work on the roads will be begun.

A communication has been received from Mr. McClelland, M. L. A., that he has applied for a grant of \$500 from the legislature for the opening of the road to Strathcona. This is hailed with pleasure as this route is undoubtedly the best of all routes connecting this centre with Strathcona or Edmonton. It is short and dry and can be made passable with very little difficulty. Another grant is expected for the building of the bridge over South Creek. This has been a long standing need.

New settlers are arriving weekly. The latest is a colony from Oregon and Washington which has located a few miles south of the lake.

Mr. Pitouche, of Colchester, is moving into this district and will start ranching here.

Pete Ingram has gone to Strathcona to work in Anderson's brick yard. Definite arrangements have at last been made for the building of the proposed church by the committee of the Presbyterian congregation at Tofield. A subscription list has been issued and is gaining the rounds of the district gathering subscriptions of money and work. The work is to be done by the end of next January.

Mr. Hobbs, late of Angus, Bridge, is in the district supplying the Methodist pulpit until conference sends in a missionary.

Mr. Clifford, engineer for Mr. Alex. McCauley, has severed his business relations with the latter, and has gone to town where he will work for Mr. Jas. McKernan. Mr. Wesley Ingram has taken his place at the mill, which is now in full swing.

Mr. McCauley will remove his shingle mill probably about the first of July, to Stony Plain, where he has a contract to fill.

The crops are showing to advantage since the recent change of weather. That of Mr. Chas. Wilcox is of specially fine appearance. It promises an extra yield if all goes well.

Tofield, June 18th, 1901.

VEREVILLE.

The grain in this settlement is looking well, but is rather backward on account of so much wet weather.

George Bole, sr., arrived last week from Minnesota. He intends to erect some new buildings before he goes back after his family.

Church services and Sunday school are held at Mr. Dennis' house every Sunday. The Presbyterian and Methodist ministers conduct alternate Sunday. There is always a good attendance and much interest is manifested.

Land hunters and settlers are still coming in by the wholesale notwithstanding the bad roads.

Two of the Strader Bros. have gone to Edmonton this week on a business trip.

Mr. Harlan is expected in to-day with his family and expects to make permanent settlement on his homestead.

There is going to be a celebration here on the first of July; everyone is looking forward to a good time.

Mr. Bole's people have come to Edmonton with four teams after lumber and wire. They will fence against horses, cattle and mosquitoes, the latter being the greatest pest of the country. We think people that are gritty enough to live away out here amongst them should be entitled to a land office, which is needed so badly, also a weekly mail.

VOTING ON THE BY-LAWS.

Voting on Monday on the by-laws to purchase the market site, and grant a bonus of free site and exemption from taxation for 10 years to a woolen mill resulted in both by-laws passing. The vote was:

| | |
|--------------|-----|
| Market site: | |
| For | 102 |
| Against | 42 |
| Rejected | 1 |
| Total | 146 |
| Woolen mill: | |
| For | 124 |
| Against | 19 |
| Rejected | 3 |
| Total | 146 |

The market site by-law is to provide for the raising of \$4,000 to pay for the cost of acquiring lots 30, 31, 32, 33, 34, 42, 44, 45, and 46 in River Lot 8, of the Edmonton settlement, for the purposes of a public market.

THE 17TH AT THE FORT.

The programme of sports and races at the celebration of the anniversary of the Battle of the Bone at Fort Saskatchewan, on the 12th, is as follows. The programme commences at one o'clock:

ATHLETIC EVENTS.

Half-mile open run, 2 in 3, " 30

Consolation running race,

American trotting association rules

to govern. Entry fee, 10 per cent of purse. Four to enter and three to start in all races. Admission 25c.

Admission for children, free. A cordial invitation is extended to all.

GOVERNMENT ASKED TO INTERFERE.

The board of trade sent the following telegram to the postmaster general on Wednesday:

"No mail here since Friday; can't find out when there will be any. Business at a standstill. Government should now interfere. Answer."

(Sgd.) J. H. GARREY,

"President Board of Trade."

ASSEMBLY ENDORSES LAND GRANTS.

In the Northwest assembly on June 12th, Mr. McDonald moved, seconded by Mr. Villeneuve:

That whereas during the last two years the British empire has been engaged in war in South Africa, and whereas certain volunteers, residents of these Territories, have gone to South Africa to assist in maintaining the integrity of the British empire,

And whereas these troops have acquitted themselves in a manner worthy of the country;

Therefore be it resolved That this assembly do urge upon the Dominion government the advisability of making a grant of land, from and in the Northwest Territories to each volunteer, a resident of these Territories who engaged in such war.

The mover, in a short speech, made reference to those who had sacrificed their lives and those who had been unfitted for their previous work; he also spoke of the inducements held out to others to settle in South Africa, and said that this country did not wish thereby to be deprived of some of its best men. He also alluded to the land grants and other compensation made in 1885.

Mr. Hamilton heartily endorsed the proposition, saying that anything that would be done to show a little appreciation on behalf of the people of Canada and on our behalf should meet with unanimous support. The splendid way in which the men had fulfilled the expectations entertained of them had brought honor to themselves and add very largely to the glories of the country.

The motion was then unanimously passed.

RED DEER.

Echo.

The homestead entries recorded at the land office for the past week were twenty-two.

S. M. Sage will shortly ship a carload of fire-wood, cut to required length, to Calgary.

Great fun for the boys. The short road to school may be impassable for pedestrians, but not for the boys. Great fun is being taken by the juveniles of both sex from a raft constructed from a piece of sidewalk running along Stewart Street. With this they ferry to and fro from school, their motto now being "wet feet and lots of fun."

Letbridge News: Messrs. J. Miller and Scott arrived last week from Minnesota, and after inspecting the country were so highly pleased that they decided to locate here. On Friday they inspected the land along the Letbridge canal, in company with Mr. D. Stewart, and on Saturday visited Stirling. On Monday they made a selection of two farms under the ditch a few miles from the town. They left on Tuesday to visit friends at Edmonton, and will return here later.

Saves Two from Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Hamilton, of Armonk, N. Y. "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and to-day she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to any other medicine. In coughs, whooping coughs, Croup, Colds, Sore and Inflamed Throats, Guaranteed by Dr. W. W. MacDonald, Druggist. Trial bottle free.

THE BIG FAIR.

EDMONTON, ALBERTA.

A Magnificent Programme of Outdoor Attractions—July 1st, 2nd, 3rd and 4th.

The famous Minneapolis Attraction Company has submitted its programme which will be as follows—

1. The Richards family, three in number, Artists, combining in their acts the Revolving Ladder and Japanese Perch Pole acts.

2. The De Villars, three in number, Trick Cottage act, a very comic act, introducing the Horizontal Bar act.

3. Prof. G. Bell, wonderful Slack Wire and Juggling act.

4. Prof. Nordquist, the World's famous High Diver.

5. Mathews and Newman Unicorn and Tumbling Globe acts, a marvelous performance.

6. Prof. G. Richards, High Hope, doing all the latest tricks on the high rope, standing on his head, walking in sacks, riding a bicycle on his head, etc., and possibly Lateral Ray, the Boy High Diver. He is only twelve and makes a dive of seventy-five feet.

The above artists are world renowned and the best in their respective classes. The Association will have in its combination an outdoor play, and performance which will undoubtedly please the people.

Take the Richards family in their famous Flying Trapeze act. This act runs for twenty-five minutes, consisting of all the newest and up to date flying and catching trapeze work.

Or Prof. Richards in his thrilling light rope performance. He is either walking horizontally, standing on his head, walking on stilts, riding on a bicycle, walking in cheese boxes or doing some other sensational feat.

Or Prof. Nordquist in his sensational dive from a height of seventy-five feet.

Or Mathews and Newman in their marvelous performance with the revolving globe and unicorn.

Or the De Villars in their comic and most laughable Trick Cottage act.

Or Prof. Bell on his slack wire, doing the most extraordinary juggling ever conceived.

In any one of them the patrons of the fair will receive the value of their money. Such a strong and up to date combination never has shown in the Northwest Territories before.
